

COMMAND & CONTROL CENTRE

COMMAND &
CONTROL CENTRE

*Provide a rapid
security response to
alleviate your safety
concerns, even under
the most exceptional
circumstances.*

OUR SERVICE

Achieve a seamless security presence with the deployment of our command & control centre.

In preparation for a potential incident or to counteract an existing threat, our command & control centre provides a seamless security provision to any location. The command & control centre specialises in delivering a bespoke service when you find yourself unable to deploy permanent security measures due to the location, resources, nature of the site or time constraints.

Our command & control centre is fitted with the latest in CCTV technology allowing us to observe and evaluate any potential threats in real-time and on the ground. The presence of the command & control centre provides a substantial deterrent to anti-social or criminal activities. Our teams deploy with equipment to be self-sufficient to enable them to be deployed to the remotest of locations and able to work continuously around the clock.

Built on 300 years of collective industry and public sector experience, our organisation holds an impressive portfolio of industry-leading experts to deliver this bespoke service. Our team are not only specialist operators but adhere consistently to the highest quality of care and standards.
