

# PENETRATION TESTING

*Deploying covert  
undercover officers to  
provide you with  
unparalleled  
intelligence gathering,  
unachievable through  
overt means.*

# OUR SERVICE

**Penetration testing deploys legitimate tactics to gather evidence and test the integrity of established security procedures.**

Our service can be used in two capacities, comprehensive business property penetration testing (Pen testing) or physical intrusion testing. We carefully advise and recommend which method would be suited to your objectives.

We discretely place our undercover operatives within your organisation, they will look to target areas of vulnerability and identify any weaknesses in your existing security systems, staff, and procedures. Our talented and skilled operatives operate to the highest standard of professionalism and are diligent in obtaining outstanding results for you.

Following a designated operation, if areas of concern have been detected, we can provide expert recommendations for protocols and systems to improve underperforming security.

### **SPECIALIST SERVICES:**

- **Testing vulnerabilities in security**
  - **Run red team assessments to test organisation's detection, defence and response capabilities**
  - **Gathering evidence and intelligence**
  - **Evaluate your current security strategy**
  - **Confirm resilience of existing systems, staff and procedures**
  - **Physical security testing (pen testing) and comprehensive business property penetration testing**
