

TRAVEL RISK ASSESSMENTS

*Highlighting your
security
requirements and
contributing to
safeguarding your
wellbeing and safety
whilst you travel.*

OUR SERVICE

We take great care to understand the truly unique set of threats associated with your destination.

International travel should be as safe as possible, whether you are away on business or holiday. Travel risk assessments provide a comprehensive review of your destination and existing travel security protocols, looking to highlight any weaknesses before travel and giving recommendations on how best to mitigate security risks.

Our service can provide a detailed country report identifying regional threats, criminal hot spots, and corresponding risks to your safety. We take into consideration every aspect of the security logistics to secure your safety and well-being.

Our travel security advisor teams are all former Police and Military specialists. Providing you with preliminary evaluations, as well as ongoing assessments of the location in real-time, advising of any recommended alterations to your security protocols, and supplying close protection as required whilst you travel.

RISK FACTORS:

- **Serious and organised crime**
 - **Political unrest**
 - **Limited police presence**
 - **Insufficient infrastructure**
 - **Widespread corruption**
 - **Remote locations**

COMMAND & CONTROL MENTORING

COMMAND &
CONTROL
MENTORING

*Providing the best in
public service
training, standards,
and procedures to the
private security
sector.*

OUR SERVICE

Gain the extensive knowledge and skill required to manage the deployment of a command & control operation to an impeccable standard.

Our training provides knowledge of practical and tactical skills in operating a command and control centre, managing resources, and appropriate procedures. We deliver bespoke learning solutions, built around any previous knowledge you may hold and your training goals. We have a fully fitted and operating command and control centre on-site, allowing us to deliver both theoretical and practical learning scenarios.

Our experienced trainers come from the forefront of Policing programs, training development, and the delivery of practical assessments. They have consistently delivered law enforcement training, nationally and internationally for over 30 years. Teaching active officers, other public officials, and the private sector staff.

Our team is qualified at a national level to administer training in a wide-ranging collection of disciplines and skills, including, but not restricted to protective services, conflict management, command and control, first aid, hostile environment safety, criminal law, and investigative skills development.

SERVICE SPECIFICS:

- **Professional training programmes**
 - **Mentoring from industry experts**
 - **Coaching on practical procedures**
 - **Reviews and assessments.**
